- Engines are guaranteed against rod knock, cracked blocks, and excessive smoking. We do not guarantee against oil leaks.
- Engine accessories left on the motor for convenience and are not guaranteed.
- Engines and Cylinder heads have heat tabs installed on them. If the center of the heat tab is melted out or the heat tab is removed the guarantee and warranty is now void.
- Transmissions are guaranteed to work properly. Gears are guaranteed to be in working condition. There is no warranty on gears and case breakage caused by abuse.
- We do not warrant incorrect rear and end ratios unless customer specifies the correct ratio at the time of purchase.
- No warranty is provided for problems arising from improper installation, faulty subsystems, or improper electrical connections.
- The warranty does not apply if parts are damaged or taken apart by the customer or if motors and/or transmission are NOT installed by a registered repair facility. Except for this limited warranty, all used parts are sold "as is" with all faults. There are no other expresses or implied warranties.

### **BUYER ASSUMES ALL LIABILITY FOR SAFETY AND PERFORMANCE**

Because the conditions of use are beyond our control, seller assumes no obligation or liability for the performance of these articles. You must establish for yourself whether these articles are suitable for your use.

All used merchandise must be inspected by buyer for defected or safety hazards. Sellers states that he in no way guarantees or warrants used merchandise for apparent or non-apparent safety hazards. It is the sole responsibility of the buyer to inspect for actual or latent safety hazards. Buyer affirms that before he entered into this agreement, the seller requested that he examine the product to ascertain whether there were defects in the product which would make the sale unacceptable to him or her; the seller afforded to the buyer an adequate opportunity to make such examination before entering into this agreement and that the buyer has examined the product as fully as desired for the purpose of determining whether or not there are defects.
